

# Corset Starting prices

Corsets are handmade, every piece is unique and special made on your own body measurements! The corsets are heavy boned with full metal boning. (at least 16 spiral-boning and 6 flat steel-boning). With every corset comes a matching back protector that is removable. This way it's up to you if you want to use it.

These prices are the starting prices for the basic corsets, if you want something special please contact me.
